

List of industries/items for automatic approval for foreign equity upto 74%

Sl.No	DIVISION	DESCRIPTION
1	Mining services	<p>Oil &amp; Gas field services, except exploration and production services.</p> <p>Services incidental to mining viz. Drilling, shafting , reclamation of mines, surveys/mapping – excluding services related to gold, silver and precious /semi-precious stones.</p>
2	Basic metals and alloys industries	<p>Manufacture of iron ore pellets, pig iron, sponge iron and steel in primary/ semi-finished/finished forms.</p> <p>Manufacture of semi-finished iron and steel products in re-rolling mills, cold-rolling mills and wire drawing mills.</p> <p>Manufacture of ferro-alloys.</p> <p>Copper manufacturing.</p> <p>Brass manufacturing.</p> <p>Aluminium manufacturing.</p> <p>Zinc manufacturing.</p> <p>Casting of metal.</p> <p>Other non-ferrous metal industries, excluding gold, silver and platinum,</p>
3	Other manufacturing industries	<p>Manufacture of medical, surgical, scientific and measuring equipment except equipment.</p> <ul style="list-style-type: none"> <li>• Manufacture of medical/surgical equipment and orthopaedic appliances (manufacture of apparatus based on the use of X-ray .</li> <li>• Manufacture of industrial process control equipment (this class includes manufacture of apparatus used for continuous measurement and control or variable such as temperature, pressure, viscosity etc of materials and products as they are being manufactured or otherwise processed).</li> <li>• Manufactured of regulating or controlling instruments and apparatus, except industrial process control equipment.</li> <li>• Manufactured of supply meters for electricity,water or gas.</li> <li>• Manufacture of sensitive balance and mathematical calculating instruments.</li> <li>• Manufacture of laboratory and scientific instruments n.e.c. (including manufacture of non-optical mircoscopes, diffraction equipments;apparatus for measuring or checking electrical quantities, eg.radiation detectors and counters, cross-talk meters and other instruments specially designed for telecommunications;apparatus for testing the physical properties of materials, eg. Apparatus for testing hardness and other properties of metals, for testing the wear and tear and other properties of textiles and for</li> </ul>

		<p>testing the physical properties of paper , linoleum, plastic rubber, wood concrete and so forth; apparatus for carrying out physical or chemical analysis, e.g. polarimeters, refractometers, calorimeters, Orsob's apparatus, phmeters, viscometeres, surface tension instruments and so forth and instruments and apparatus for measuring or checking the flow, level, pressure or other variables of liquids or gases, e.g. flow meter, level gauges, manometers, heatmeters, and so forth, except industrial process control equipment).</p> <ul style="list-style-type: none"> <li>• Manufacture of parts and accessories n.e.c. for instruments and apparatus included in this group.</li> <li>• Manufacture of other medical surgical, scientific and measuring equipment n.e.c [includes manufacture of hydrometers, thermometers, pedometer, tachometers, balancing machines, test benches, comparators, [(include optical comparators and other optical type measuring and checking appliances fand instruments); Instruments for checking watches or watch parts and so forth.].]</li> <li>• Manufacture of photographic, cinematographic and optical goods and equipment (excluding photochemicals, sensitised paper and film).</li> <li>• Manufacture of items based on solar energy like solar cells, cookers, air and water heating systems and other related items.</li> </ul>
4	Electric generation and transmisson	<p>Generation and transmission of electric energy.</p> <ul style="list-style-type: none"> <li>• Generation and transmission of electric energy produced in hydro electric power plants.</li> <li>• Generation and transmission of electric energy produced in coal based thermal power plants.</li> <li>• Generation and transmission of electric energy produced in oil based thermal power plants.</li> <li>• Generation and transmission of electric energy produced in gas based thermal power plants.</li> </ul>
5	Non-conventional energy generation and distribution	
6	Construction	<p>Construction and maintenance of roads, railbeds, bridges, tunnels, pipelines, ropeways, ports, harbours and runways.</p> <p>Construction and maintenance of waterways and water reservoirs.</p> <p>Construction and maintenance of hydroelectric projects.</p> <p>Construction and maintenance of power plants.</p> <p>Construction and maintenance of industrial plants.</p>
7	Land Transport	Pipeline transport excluding Crude oil, petroleum products and natural gas pipelines.
8	Water Transport	<p>Ocean and water transport.</p> <p>Inland water transport.</p>
9	Storage and Warehousing services	Warehousing of agricultural products with refrigeration (cold storages).
